The following is an overview of performance by reportable segment.

In the 1st quarter for the current fiscal year, the Group has changed the method of presenting NISSIN FOODS VIETNAM Co., Ltd. to be included in "China," which was included in "Others," resulting from the review of the business management classification of the Group.

Accordingly, the following amount of the same period for the previous fiscal year reflected this change.

1) NISSIN FOOD PRODUCTS

The sales situation of NISSIN FOOD PRODUCTS saw an increase in revenue for each category compared to the same period of the previous fiscal year, with cup-type noodles, bag-type noodles, and cup-type rice products performing steadily, as well as price revisions. In the cup-type noodles category, products such as the "CUP NOODLE GUZAI MAMIRE" series, of which the first installment released in October 2023 and followed by the second installment in November 2023, have been performing well, capturing customer needs. In the bag-type noodles category, sales of long-selling products such as the "CHICKEN RAMEN" in its 65th anniversary increased and contributed to sales growth. As for the cup-type rice products, the "NISSIN CURRY MESHII" series has maintained its strong performance. Profits increased due to sales growth despite cost increase from raw materials price hike etc.

Consequently, revenue was ¥ 177,105 million (+6.1%), core operating profit (Note 1) was ¥ 27,135 million (+8.6%) and operating profit was ¥ 27,204 million (+8.9%) in this reportable segment.

2) MYOJO FOODS

The sales situation of MYOJO FOODS saw an increase in revenue for both cup-type noodles and bag-type noodles compared to the same period of the previous fiscal year.

In the cup-type noodles, not only the "LOCABO NOODLES OISHISA PLUS" newly launched in March 2023 performed well but also the "MYOJO IPPEICHAN YOMISE NO YAKISOBA," of which three signature sauces strengthen the savory flavor, contributed to sales.

In the bag-type noodles, sales of the "MYOJO CHARMERA" series which strengthened to appeal "gentle taste" continuously performed well.

Profits increased due to sales growth despite cost increase from raw materials price hike and increased advertising expenses etc.

Consequently, revenue was ¥ 31,934 million (+6.4%), core operating profit (Note 1) was ¥ 2,328 million (+9.6%) and operating profit was ¥ 2,388 million (+10.5%) in this reportable segment.

3) Chilled and frozen foods and beverages

The chilled foods business saw strong sales of new products such as the "NISSIN SPA OH" and the "NISSIN NO DONBEI NO OISHII GUZAI" series, yakisoba group and the cold Chinese noodles group in this summer. In addition, the "GYOURETSU NO DEKIRU MISE NO RAMEN," extending the shelf life from 40 days to 60 days since this autumn saw an increase, resulting in increased revenue compared to the same period of the previous fiscal year. On the profit side, it increased compared to the same period of the previous fiscal year due to price revisions although there were cost increases due to rising raw material prices etc.

The frozen foods business saw an increase in revenue compared to the same period of the previous fiscal year, with steady performance in the ramen and udon categories, as well as the effects of price revisions. The "REITO NISSIN CHUKA" and the "REITO NISSIN MAZEMEN TEI" series performed well in the ramen category. On the profit side, it increased compared to the same period of the previous fiscal year due to sales growth despite cost increases from raw materials price hike etc.

The beverage business saw a continued strong performance of the "PILKUL 400" series, lactobacillus beverage, and the "PILKUL MIRACLE CARE," which "improves sleep quality and reduces fatigue." The "TOKACHI DRINK YOGURT" series also saw significant growth following its autumn revamp. Besides the effect of price revisions, revenue and profits increased compared to the same period of the previous fiscal year.

Consequently, revenue was ¥ 71,542 million (+10.9%), core operating profit (Note 1) was ¥ 7,250 million (+117.8%) and operating profit was ¥ 7,310 million (+130.2%) in this reportable segment.

4) Confectionery

In the confectionery business, NISSIN CISCO saw an increase in both revenue and profit compared to the same period of the previous fiscal year, with steady sales of the "CISCORN" series, which celebrated its 60th anniversary since its launch, and the "COCONUT SABLE" series. The sales situation of BonChi saw a slight increase in total revenue compared to the same period of the previous fiscal year, however, profits decreased due to rising raw material prices etc. As for KOIKE-YA, revenue and profit increased compared to the same period of the previous fiscal year due to expanded sales of mainstay products such as the "KOIKE-YA POTATO CHIPS" series and the "SUCORN" series etc., in addition to price revisions.

Consequently, revenue was ¥ 63,257 million (+15.1%), core operating profit (Note 1) was ¥ 4,740 million (+116.9%) and operating profit was ¥ 4,614 million (+112.1%) in this reportable segment.

5) The Americas

In the Americas, continued efforts to strengthen the proposal and promote the introduction of value-added products for creating new demand, as well as price revisions, contributed to an increase in both revenue and profits.

Sales in the United States increased due to continued focus on strengthening the sales of value-added products as well as steady sales of affordable price range products, while solid demand for instant noodles continued even after the price revision implemented in August 2022. In Brazil, revenue increased because of price revisions while sales volume decreased due to large-scale maintenance for production facilities and production issues including power outages caused by natural disasters.

As for profits, although temporary expenses related to the construction of the third factory in the United States were incurred, the whole reportable segment saw an increase in profits due to the stabilization of various cost increases, such as major raw materials, the effect of increased revenue from price revisions, and the impact of exchange rates.

Consequently, revenue was ¥ 119,179 million (+13.8%), core operating profit (Note 1) was ¥ 18,122 million (+89.0%) and operating profit was ¥ 18,129 million (+89.6%) in this reportable segment.

Excluding the impact of currency translation, revenue was ¥ 110,198 million (+5.2%) and core operating profit was ¥ 16,907 million (+76.4%). (Note 2)

6) China

In China, the Group (NISSIN FOODS CO., LTD. and its subsidiaries) has expanded its geographical sales areas and strengthened its CUP NOODLES Brand. In mainland China, consumer confidence is weak due to a slow economic recovery after the reopening and increasing uncertainty about the future. In Hong Kong, on the other hand, inbound travellers from mainland China increased, but consumption of instant noodles remained sluggish due to increased outbound travellers and changes in consumption behaviour by Hong Kong people. Against this backdrop, in terms of revenue, the sales volume of cup-type noodles slightly increased compared to the previous fiscal year, but that of bag-type noodles was sluggish due to the absence of special demand from the previous fiscal year due to the spread of COVID-19 in mainland China and a decline in eating at home, resulting in a year-on-year decline in revenue, despite the impact of currency translation. In terms of profit, the one-off government subsidies recorded in the previous fiscal year disappeared in the current fiscal year, resulting in a year-on-year decrease in profit. However, on a recurring basis, profit slightly increased, mainly due to lower raw material prices and the impact of currency translation.

Consequently, revenue was ¥ 48,846 million (-2.6%), core operating profit (Note 1) was ¥ 5,353 million (+0.3%) and operating profit was ¥ 5,380 million (-7.7%) in this reportable segment.

Excluding the impact of currency translation, revenue was ¥ 47,777 million (-4.7%) and core operating profit was ¥ 5,288 million (-0.9%). (Note 2)

Revenue in "Others," which includes business segments not included in reportable segments such as domestic other business, Europe, Asia and New businesses was ¥ 37,054 million (+23.0%), core operating profit (Note 1) was ¥ 9,919 million (+72.6%) and operating profit was ¥ 9,771 million (+76.1%).

Excluding the impact of currency translation, revenue was ¥ 34,745 million (+15.4%) and core operating profit was ¥ 9,702 million (+68.8%). (Note 2)

Note 1 : Core operating profit = operating profit - other income and expenses as non-recurring income and expenses

(4) Notes to Condensed Consolidated Financial Statements

(Notes on premise of going concern)

No items to report

(Reporting entity)

NISSIN FOODS HOLDINGS CO., LTD. (hereinafter "the Company") is established as a stock company domiciled in Japan. The addresses of its registered head office and main offices are disclosed on the Company's website (https://www.nissin.com/en_jp/). The Company's condensed quarterly consolidated financial statements comprise the Company and its subsidiaries (hereinafter "the Group") and interests in the Company's associates.

Details of each business and principal activity of the Group are described in Note (Segment information).

(Basis of preparation)

1) Compliance with IFRS

The condensed quarterly consolidated financial statements of the Group have been prepared in accordance with IAS 34. Since the requirements for "Specified Company of Designated International Accounting Standards" set forth in Article 1-2 of the "Ordinance on Terminology, Forms, and Preparation Methods of Quarterly Consolidated Financial Statements" are satisfied, the Group adopts the provisions of Article 93 of the same Ordinance.

The Group's condensed quarterly consolidated financial statements were approved by the Board of Directors on February 13, 2024.

2) Functional currency and presentation currency

The Group's condensed quarterly consolidated financial statements are presented in Japanese yen, which is also the Company's functional currency, and amounts of less than one million yen are rounded off to the nearest million yen.

(Material accounting policies)

The material accounting policies adopted for the Group's condensed quarterly consolidated financial statements are the same as those applied for the consolidated financial statements for the previous fiscal year.

(Segment Information)

1) Outline of reportable segments

The Group's reportable segments are components of the Group for which separate financial information is available and regular evaluation by the Board of Directors is being performed in order to make decisions about resources to be allocated and assess its performance.

In the 1st quarter for the current fiscal year, the Group has changed the method of presenting NISSIN FOODS VIETNAM Co., Ltd. to be included in "China," which was included in "Others," resulting from the review of the business management classification of the Group.

Accordingly, the following amount of the same period for the previous fiscal year reflected this change.

The Group employs holding company system of eight operating companies in Japan and four overseas business regions as strategy platforms, and the reportable segments consist of "NISSIN FOOD PRODUCTS", "MYOJO FOODS", "Chilled and frozen foods and beverages", "Confectionery", "The Americas" and "China". The segments of "NISSIN FOOD PRODUCTS", "MYOJO FOODS", "The Americas" and "China" are operating the business of manufacturing and selling cup- and bag-type noodles. The "Chilled and frozen foods and beverages" segment is operating the business of manufacturing and selling chilled and frozen foods and beverages. "Confectionery" segment is operating the business of manufacturing and selling confectionery.

2) Segment profit and performance

The accounting methods of reportable business segments are generally the same as the Group's accounting policies described in (Material accounting policies).

Figures reported as segment profit are based on the operating profit reported in the condensed quarterly consolidated statements of income. Revenue from intersegment transactions and transfers are based on the current market prices.
